Surgeon-General Sternberg, himself one of the most highly rated experts in yellow fever treatment, has just given his approval, without Surgesons Reed, Carroll and Agromonte, upon the "Etymology of Yellow Fever," in which the conclusion was reached that the mosquito is chiefly responsible for the transmission of this fell disease. The circular says in part: "The recent experiment made in Havana by the medical department of the army having proved that yellow fever, like malaria fever is conveyed chiefly, and probably exclusively, by the bite of infected mosquitoes, important changes in the measures used for the prevention and treatment of this disease having become necessary.—As it has been demonstrated that yellow fever cannot be conveyed by bedding, clothing effects and baggage, they need not be subject to any disinfection.—Malaria fever, like yellow fever, is communicated by mosquito bites, and therefore is just as much of an infectious disease and requires the same measures of protection against mosquitoes. Coal oil is recommended for the destruction of the eggs of the mosquitoes. It should be poured on the surface of all stagnant water during the summer time."

An Arizona correspondent of San Diego Union gives the following definitions to the names of the various Indian tribes in this wild and woolly Territory, and the habits of each: Apache means men—Adam; of the Apache there are the Tontos (fools), Chiricahuas (mountains), the Mojave (half-breeds), the Coyoteros (coyotes), the Mescaleros (mescal eaters.) The Pimas on the Gila river; the Moricopes are affiliated with the Pimas; Papagoes are baptized Pimas; Yumas are on the lower Colorado river; Mojaves are on the Colorado river; Moquis inhabit the Indian city called by the Spaniards the City of Buffalo and described by the poet Southey as descendants of the colliery of Madoc, Prince of Wales, who sailed west in the twelfth century with several ships and never returned. There are by far the most interesting Indians in Arizona. They have visited Salt Lake, City Territory, and conversed with Welsh Mormons, but the idiom is much changed in all these centuries. There was a tradition that they had a Welsh Bible, but it has not been found. The Yavapais are mountain Indians, in the northern part of the territory, in Yavapai county; the Huailapis are a mountain tribe on the Santa Maria; the Supais are a remnant of the cliff dwellers near the canyons of the Colorado river; the Cocopas (Water Indians) are on the Colorado river in eastern San Diego county and Mexico; the Navajoes (knifers) are in the northern part of Arizona and New Mexico.

Rail Road Gossip.

Mr. Thos. H. Whigglesworth a rail road surveyor who claims to have picked the route for a great many rail roads in various parts of the United States, past thru here the fore part of the week on his way to Clifton and various places in the southern part of Arizona and in Old Mexico. His object was to map out a line for a rail road from Durango, Colo. to the mining camps of Southern Arizona and Old Mexico. In an interview with Mr. Whigglesworth we gleaned the following:

The prospects for a road from Durango this far is good, and is quite sure of being built if the remainder of the way be any where near as good as that which he had passed over. Mr. Whigglesworth says that they can lay an average of 3 miles of track a day. Tho the prospects are fairly good thus far we cannot rely on it coming as every little while there is a rumor started that a rail road is coming thru St. Johns, and it would be hard to make the people believe it now if it was really the fact.

We cannot depend much upon it as Mr. Whigglesworth says there is nothing sure whether the Phelps, Dodge and Palmer Co. will see enough benefit in the road to build it or not. We hope they can and that the rumor out at present will come to pass. That we may have a rail road thru here and have a better and easier way of exporting and importing the millions of pounds of freight that now are hauled on wagons.

As this is a very extensive wool growing country many hundred thousands of pounds of wool are exported every spring. And Apache County could easily be made an extensive farming and lumbering district.

The St. Johns Irrigation Company has a reservoir covering 1800 acres of land to a depth of 40 ft at the dam, and can turn it out on a tract of 5,000 acres of fertile land by the making of a canal 5 miles long.

There are also other incorporated Irrigation Companies here having reservoirs completed and building others.

About 35 miles South of St. Johns and in Apache County is a tract of land containing thousands of acres covered with an excellent lumbering growth of pine timber.

Cattle raising is also one of the chief occupations of Apache County.

There has been very little prospecting in this county if any so as regarding the mineral products very little is known altho it is reported that there is a very thick vein of rich coal a few miles East of St. Johns. Some coal has been hauled from there and used for blacksmithing and burning lime etc. and is said to be good coal. This is all that is known regarding minerals but undoubtedly there are some ore close around here. Prospectors say the formation of the earth and rocks indicate different kinds of ore.

Mineral Collection.

Phoenix, Arizona May 14th 1901.
Editor, The Herald,

Dear Sir:
The Phoenix and Maricopa county Board of Trade has begun the gathering of what we trust

will be the best mineral collection in the territory. The collection is being made solely and simply for the purpose of giving visitors and probable investors, in mining properties a comprehensive idea of our vast mineral resources. We already have quite a fine assortment, but need many more. We should like to have samples of ore from every mine and good prospect in the territory. It is certainly to the mutual interest of us all, and particularly those in the mining districts that our mineral wealth be given as great publicity as possible.

Fraternally yours, S. H. Hamelton Sec. Board of Trade Phoenix Ariz.

If it be possible for us to assist in this menagerial enterprise it is with pleasure we do so, and would encourage all persons having ore of value that they send a sample of the same to the above address stating where it was obtained. That those desiring information in this line may obtain it from the Phoenix and Maricopa County Board of Trade.

A worthy Successor.

"Something New Under
The Sun."

All Doctors have tried to cure CATARRH by the use of powders acid gass, inhalers and drugs in paste form. Their powders dry up the mucus membranes causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the diseases. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of CATARRH, has at last perfected a treatment which when faithfully used, not only relieves at once, but permanently cures CATARRH, by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "SNUFFLES the GUARANTEED CATARRH CURE" and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and every thing necessary to its perfect use.

"SNUFFLES" is the only perfect CATARRH CURE ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently and is also wonderfully quick to relieve HAY FEVER or COLD in the HEAD.

CATARRH when neglected often leads to CONSUMPTION—"SNUFFLES" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure CATARRH in any form or stage if used according to the direction which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "SNUFFLES" the "GUARANTEED CATARRH CURE."

Sent prepaid to any address in the United States or Canada on receipt of One Dollar. Address Dept. E644 EDWIN B. GILES & COMPANY, 2330 and 2332 Market Street, Philadelphia.

A Free Trip to Paris!

Reliable persons of a mechanical or inventive mind desiring a trip to the Paris Exposition, with good salary and expenses paid, should write THE PATENT RECORD, Baltimore, Md.

The Editor and the Doctor

If the editor makes a mistake he has to apologize for it, but if the doctor makes a mistake he buries it. If we make one their is a law suit, tall swearing and a smell of sulphur but if the doctor makes one there is a funeral, cut flowers and smell of varnish. The doctor can use a word a foot long but if the editor uses it he has to spell it. Any medicine college can make a doctor. You can't make an editor. He has to be born one. When a doctor gets drunk it is a case of overcome by the heat, and if he dies it is heart failure. When an editor gets drunk it is too much booze, and if he dies it is a case of delirium tremens. The editor works to keep from starving, while the doctor works to ward off the gout. The editor helps men to live better, and the doctor assists men to die easy. The doctor pulls a sick man's leg, the editor is glad if he can collect his bill at all.—Ex.

The Home Gold Cure.

An Ingenious Treatment by which Drunkards are Being Cured Daily in Spite of Them-selves.

No Noxious Doses. No Weakening of the Nerves. A Pleasant and Positive Cure for the Liquor Habit.

It is now generally known and understood that Drunkenness is a disease and not weakness. A body filled with poison, and nerves completely shattered by periodical or constant use of intoxicating liquors requires an antidote capable of neutralizing and eradicating this poison, and destroying the craving for intoxicants. Sufferers may now cure themselves at home without publicity or loss of time from business by this wonderful "HOME GOLD CURE" which has been perfected after many years of close study and treatment of inebriates. The faithful use according to directions of this wonderful discovery is positively guaranteed to cure the most obstinate case, no matter how hard a drinker. Our records show the marvelous transformation of thousands of drunkards into sober industrious and upright men.

WIVES CURE YOUR HUSBANDS! CHILDREN CURE YOUR FATHERS!! This remedy is in no sense a nostrum but it is a specific for this disease only, and is so skillfully devised and prepared that it is thoroughly soluble and pleasant to the taste, so that it can be given in a cup of tea or coffee without the knowledge of the person taking it. Thousands of drunkards have cured themselves with this priceless remedy, and as many more have been cured and made temperate men by having the "CURE" administered by loving friends and relatives without their knowledge in coffee or tea, and believe today that they discontinued drinking of their own free will. DO NOT WAIT. Do not be deluded by apparent and misleading "improvement." Drive out the disease at once and for all the time. The "HOME GOLD CURE" is sold at the extremely low prices of One Dollar thus placing within reach of everybody a treatment more effectual than others costing \$25 to \$50. Full directions accompany each package. Special advice by skilled physicians when requested without extra charge. Sent prepaid to any part of the world

A PURE GRAPE CREAM OF TARTAR POWDER

DR. PRICE'S CREAM BAKING POWDER
